CUTTING TOOLS

OUR COMPANY

"We are the RR Family, committed to excellence."

Founded in 1993, our company specializes in the manufacturing and export of high-quality machine tool accessories, such as revolving centres, sleeves, arbors, collets, and CNC tool holders. Our core strength lies in precision grinding, which has established us as India's largest manufacturer of sleeves and arbors.

Our commitment to quality is unwavering, and our products are comparable in quality to some of the best European brands from Germany and Italy. We take pride in offering the highest quality products at competitive prices to our customers.

At RR Brand, we believe in building long-lasting relationships with our customers, which is why we have a vast network of distributors throughout India. We only sell products that we can service and provide technical support for, ensuring that our customers are always satisfied with their purchases.

In response to the changing market landscape, we have adapted our business model to cater to the growing demand for direct-to-consumer sales. In 2020, we launched our ecommerce website to facilitate this initiative, which has been met with great success. With our online platform, we aim to provide a seamless shopping experience and deliver our high-quality products to customers across India. Our comprehensive online catalog features nearly every product we offer, all of which are kept in stock and ready for immediate shipping.

CONTENTS

Lathe Centres

High Speed Revolving Centre, Slow Speed Revolving Centre, Dead Centre, Pipe Centre, Spare Points

4

Cutting Tools

Solid Carbide End Mills, Ball Nose End Mills, Aluminium End Mills, Carbide Drills, Face Cutter

6

Spindle Tooling

BT Taper, ISO Taper, Morse Taper, R8 Taper, SK Taper, CAT Taper, HSK Taper, BBT Taper, Straight Shank

7

Tool Holding

Collets, Sleeves, Sockets, Boring Head, Drill Chucks

16

Tool Holder Accessories

Spare Nuts, Spanners, Pull Studs, Spindle Cleaner, Drill Drift, Traub Finger, Locking Fixture, Edge Finder

18

Clamping Accessories

Clamping Kit, T-Slot Nut, Flange Nut, Hex Hi Nut, Magnetic V Block

20

Hand Tools

Ajustable Hand Reamer, Tap Wrench, Round Die Stock Handle, Adjustable Tap Wrench

21

Measuring Tools

Edge Finder, Z-axis Setter, Try Square, Degree Protractor, Depth, Feeler, Radius & Thread Gauge,

Benefits

- ▶ It's very useful to increase length of a chuck and also used in turning machine where you have turret sleeve size smaller but straight.
- ▶ Useful to OEM for machines like Multi Spindle machine and it comes in various sizes to fit in, from smallest 8 mm to 40 mm are available.

ER Straight Shank Bar are fit for machining diverse deep hole

ONLINE STORE

Welcome to RRToolStore, your one-stop-shop for high-precision machine tool accessories in India. With over 1000 products to choose from, we offer a comprehensive online catalog with everything from revolving centers and sleeves to arbors and collets, all available for purchase at wholesale prices. Our products are manufactured at our state-of-the-art facilities in Ludhiana, Punjab, using modern CNC, VMC, and CNC grinding machines to ensure high quality and precision. We offer free express shipping on all orders (T&C applied), with door-to-door delivery and high-grade packaging to ensure your products arrive in perfect condition. Plus, as a direct-to-consumer store, we pass the savings on to you with exclusive offers and competitive pricing. Visit our ecommerce website at www.rrtoolstore.com to browse our selection and place your order today!

OUR FACILITIES

Our two advanced manufacturing facilities in Ludhiana, Punjab are fully equipped with modern CNC, VMC, and grinding machines, enabling us to produce high-quality products with precision and efficiency. Our skilled workforce is trained to maintain optimal performance and minimize downtime, while our location provides convenient access to transportation networks for efficient domestic and international deliveries.
